The feeling of uniqueness

L'emozione dell'unicità

Excellence is the sum of the finest details. We took inspiration from the ancient art of mosaic and reinvented it through advanced digital printing technologies. The result is Holos: hundreds of pieces for a unique surface.

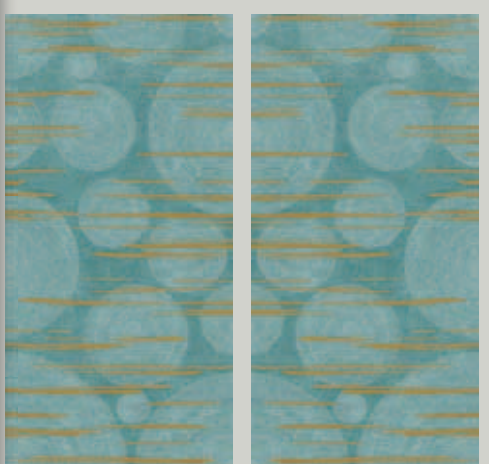

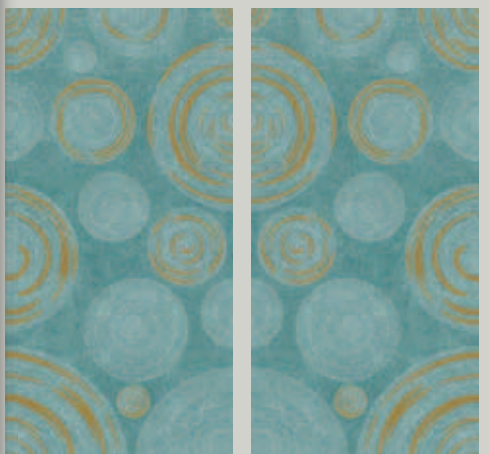

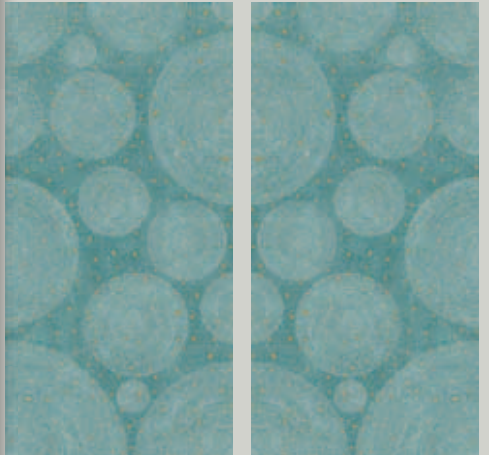

Tactile and chromatic experimentation transform surfaces into opportunities for creative expression. The geometric textures in three-dimensional reliefs - declined through the nuances of whites, blacks and vibrant colours - create symmetric and potentially infinite compositions.

L'eccellenza è somma dei più minuziosi dettagli. Abbiamo tratto ispirazione dall'antica arte del mosaico e lo abbiamo reinterpretato grazie ad avanzate tecnologie di stampa digitale. Il risultato è Holos: centinaia di pezzi per una superficie unica.

Sperimentazioni tattili e cromatiche trasformano le superfici in opportunità di espressione creativa. Le texture geometriche con rilievi tridimensionali – declinate in nuance di bianco e di nero e in colori vivaci – creano composizioni simmetriche e potenzialmente infinite.
